**DETAILED ACTION**

***Election/Restriction***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-26 and 122, drawn to a method of treating pain employing a compound of formula I.

Group II, claim(s) 27-35, 37-58 and 123, drawn to a method of treating pain employing a compound of formula II A.

Group III, claim 36, drawn to a method of treating pain employing a compound of formula IA.

Group IV, claim(s) 59-94 and 124, drawn to a method of treating pain employing a compound of formula IB.

Group V, claim(s) 95-121 and 125, drawn to a method of treating pain employing a compound of formula IC.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Each Group employs different sets of compound as reflected by their varied core structure to treat chronic pain.

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

- Compounds of formula I
- Compounds of formula II A

- Compounds of formula IA
- Compounds of formula IB
- Compounds of formula IC

Applicant is required, in reply to this action, to elect a single species (**i.e., one single compound, a specific compound of formula IA or example**) to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The claims are deemed to correspond to the species listed above in the following manner:

- 1-26 and 122
- 27-35, 37-58 and 123
- 36
- 59-94 and 124
- 95-121 and 125

The following claim(s) are generic: 1-125.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: These compounds vary greatly in structure since

Art Unit: 1617

they can have so many different substitutions as recited in the claims herein. The search for all the compounds herein is therefore an undue burden on the office. Note that the search is not limited to patent files.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mojdeh Bahar whose telephone number is (703) 305-1007. The examiner can normally be reached on (703) 305-1007 from Monday to Friday from 9:00 a.m. to 5:00 p.m.
